

## DRYER – Improved Profile

REGION:	Europe
MACHINE:	PM5
POSITION:	1st Section (Top & Bottom)
GRADE:	Medium
SPEED:	350 mpm

### OBJECTIVES:

---

Improve CD moisture profiles.

### BACKGROUND:

---

- Coarser spirals were supplied to this machine in the past.

### RESULTS/VALUE

---

SpiralPro™, a finer round yarn spiral fabric, was installed on the 1<sup>st</sup> Top and 1<sup>st</sup> Bottom positions. Several improvements were immediately noticed:

- Improved CD profile
  - Less sheet breaks
  - Less water carry
- Higher productivity
